github username: jtjanecek

EDUCATION:

University of California, Irvine
Graduation Year of 2018
Bachelor of Science in Computer Science
GPA / Major GPA: 3.838 / 3.95
Dean's Honor List, 5/5 Quarters

SKILLS:

Languages: Python, C++, C, Javascript, Java, Bash, HTML, CSS, XML, SQL, C#
Platforms: Windows, Linux, Android

PROJECTS:

- Created and developed DayQuest April 15, 2016 – April 30, 2016
 - Mobile app created for an Autism AppJam
 - Programmed the app in Java and XML.
 - Designed the user interface and model
- Built a Chat Bot for Twitch (game streaming) March 2016 – Present
 - The Bot uses the Twitch IRC API and python sockets
 - Created plugin functionality and created a Trivia plugin
- Built Android application for tracking workout progress February – March 2015
 - Uses Java, XML, and built in Android Studio
 - The application tracks data automatically in Microsoft Excel with a python script that reads the data generated from the back-end, which was made in the Eclipse IDE

EXPERIENCE:

- Built a JavaScript game based on the 'Dat Boi' meme
- Redesigned high school cross country website using WebEZ.
- Used Visual Studio, Eclipse, and Vim for C, C++, and assembly for my Computer Organization and Programming in C++ classes.
- Familiar with the Linux file system and Ubuntu desktop distributions, as well as SSH for Linux.
